

**Archery New Brunswick (ANB)  
Policy – Tournaments and Championships**

**Effective date: September 16, 2018**

**Purpose and scope**

The purpose of this Policy is to define the annual archery championships held in New Brunswick as well as the additional requirements of scheduling, eligibility, fees, format of the tournaments, the Hosting Club's responsibilities as well as to define the rules applicable for annual ANB Championship tournaments and ANB sanctioned tournaments.

Amendments to this Policy are approved by the Board of Directors.

**Policy**

**1.0 ANB may hold any of the following Championship tournaments annually:**

- a) A tournament to determine the Indoor Target Archery Championships and 3D Indoor Archery Championships of ANB may be held on or about the third weekend of April in each year. The tournaments will be scheduled for one weekend and will coincide with the Board of Directors meeting.
- b) A tournament to determine the Outdoor Target Archery Champions, the Field Archery Champions, and the 3D Outdoor Champions of ANB may be held prior to Nationals of each year.
- c) A tournament called the Canadian Regional Indoors may be held each year in accordance with Archery Canada's scheduling requirements. With the Board's approval two (2) sites, one in the north and one in the south of NB may host providing it is the same weekend however not the same day.
- d) A tournament called the Atlantic Regionals may be held each year in accordance with the rotation schedule agreed to between the Atlantic Provincial Sports Organizations (PSOs) for Archery.

**1.1 Rules for scheduling tournaments**

- a) Each year at the Meeting of the Board of Directors held in September the Vice President shall accept bids from any affiliated Club wishing to host any ANB sanctioned tournaments and the ANB Championship tournaments. During this meeting, the Board agrees to and lists all the indoor and outdoor tournaments for the coming archery seasons. The tournaments will be marked as "registered" or "non-registered".
- b) There will be only one event of a style (3D/target) on a specific day or weekend. For example, a 3D tournament on Saturday in Moncton and in Bathurst on Sunday on the

same weekend will not be allowed. Also for the indoor season there would not be a 3D and a target tournament the same day with the following exception. For the outdoor season archers tend to be more committed to one style of archery and thus a 3D and a target event could be held the same day but the one style of archery event per weekend would be maintained.

c) From the various bids the Board of Directors shall decide by a majority vote which of the bids will be accepted.
